

Nonprofit Online Giving: Tools To Grow Your Giving

Our Mission

Our mission is helping churches, nonprofits and schools grow their overall giving while lowering online giving and administrative expense.

Online Giving & Event Registration Software

Ardent Giving Solutions' web-based software makes it easy to receive online donations and event registrations. You can choose to accept Debit & Credit Cards, ACH or Debit Card Only Giving™. Customize your giving and event registration pages to exactly match your colors, branding and identity. You can easily customize your giving application so your donors can designate their contributions to any of your funds or campaigns. Your donors will receive thank you emails, automated receipts and have online access to view their giving and registration information. Administrators can quickly manage contribution and event registration data through online tools and import/export reports.

Pricing

“Interchange pricing” assures you that each transaction is processed at the lowest rate available. Our pricing philosophy has saved our customers an average of 35% over other providers. Our Online Giving & Event Registration Software empowers organizations to accept gifts from an unlimited number of donors for an unlimited number of campaigns and fund categories. This assures you that as your donor base grows, your software expense will not.

PCI Compliance

We take the risk and worry out of your hands. Ardent Giving Solutions is fully PCI Compliant. We adhere to all PCI Data Security Standards to ensure the safe handling of sensitive information. Your members can feel secure when they give online

About Ardent Giving Solutions

Ardent Giving Solutions was founded on the belief that churches, nonprofits and schools deserve an advocate in online giving. Our extensive experience in electronic transactions results in developing low-cost, online giving technology. Our singular focus is saving you both time and money so that more of each can be spent fulfilling your mission.
